New Details on History of the Bridgeton/West Lake Landfill Research of Historical Problem to be Revealed

St. Louis, MO – Research on the history of Operable Unit 2 of the Birdgeton/West Lake Landfill has uncovered a shocking discovery about a past problem, which will be discussed at the meeting tonight. Presentation of this information will raise questions and MCE is working to find answers. The reason this information will be presented is because MCE and community leaders do not believe that pertinent information related to current problems should be withheld.

What: West Lake Landfill community meeting.

Where: International Union of Operating Engineers Local 513
3449 Hollenburg Drive, Bridgeton, MO 63044

When: October 17, 2013 at 6:30pm.

Why: Part of monthly meetings to keep impacted communities informed about issues and events at the Bridgeton/West Lake Landfill.
